# ENVIRONMENTAL ASSESSMENT ACT

## NOTICE OF APPROVAL TO PROCEED WITH THE UNDERTAKING

RE: An Environmental Assessment for Highway 24  
Hespeler Bypass, City of Cambridge

Proponent: Ministry of Transportation and Com-  
munications

EA File No. 1-82-0017-000

TAKE NOTICE that the period for requiring a hearing, provided for in the *Notice of Acceptance of the Environmental Assessment* for the undertaking, expired on November 23, 1983. I have received one notice requiring a hearing by the Environmental Assessment Board with respect to approval to proceed with the undertaking.

I have considered the purpose of the Act, the environmental assessment of the undertaking as accepted by me, and the submissions made to me.

Accordingly, I hereby give approval to proceed with the undertaking, subject to the terms and conditions set out in Schedule A (attached).

### REASONS

The reasons for giving approval are:

1. On the basis of the proponent's Environmental Assessment and the review process, the proponent's conclusion that, on balance, the advantages of this undertaking outweigh its disadvantages appears to be valid.
2. No other more beneficial alternative method of implementing the undertaking was identified.
3. On the basis of the proponent's Environmental Assessment, the review process and the conditions of approval, the construction, operation and maintenance of the undertaking will be consistent with the purpose of the Act (section 2).
4. Submissions were invited and received from the Ministry of Transportation and Communications and on behalf of Essnal Investments Limited regarding issues raised on behalf of Essnal Investments Limited as to why a hearing should be held. It is my opinion that the issues raised on behalf of Essnal Investments Limited can be more appropriately dealt with under the provisions of the *Planning Act* and the *Expropriations Act*, and since an opportunity exists for Essnal Investments Limited to be heard under these Acts a hearing under the *Environmental Assessment Act* is unnecessary.

Dated at Toronto, this 5th day of March, 1985.

ANDY BRANDT,  
Minister of the  
Environment,  
15th Floor,  
135 St. Clair Avenue West,  
Toronto, Ontario M4V 1P5  
O.C. No. 423/85.

### Schedule A

#### Conditions of Approval

1. The proponent shall comply with all of the provisions of the Environmental Assessment which are herein incorporated by reference.
2. If it is shown in the detailed design that it is impossible to adjust the alignment to avoid all parts of the Ellis Lime Kiln Complex then the following work shall be undertaken by the proponent prior to disturbance of the site of the complex:
  - (a) Prepare a site plan of the complex which clearly identifies the parts of the complex, for example, lime kiln, quarry slaking pit and the relationship between the parts;
  - (b) Provide the staff of the Architecture and Planning Unit, and the Archaeology Unit of the Ministry of Citizenship and Culture ("MCC") with better quality contemporary photographs of the site, and if any can be found, historic photographs of the site, (see page A-27 of the Environmental Assessment);

3. Further detail shall be provided during detailed design to the satisfaction of the Regional Director of the Ministry of the Environment with respect to a description of the existing environment, as it relates to the preferred alternative alignment, and an assessment of the type and magnitude of long and short term potential impacts on ground and surface water.
4. Mitigative measures to be implemented with respect to long and short term potential impacts on ground and surface water shall be provided to the satisfaction of the Regional Director of the Ministry of the Environment during detailed design.
5. Construction details of the undertaking in relation to Regional Well H-5, near the north junction of the bypass with existing Highway 24, shall be provided during detailed design to the Regional Director of the Ministry of the

Environment to demonstrate that no adverse effects on the well will occur.

6. During the detailed design stage, MTC will determine whether either of the former dump sites referenced in the Environmental Assessment will be affected in any way by construction of the highway. If it is necessary to excavate material, the Regional Director of the Ministry of Environment will be notified, and the proponent will seek any approvals which may be required under the *Environmental Protection Act*.
7. The Regional Director of the Ministry of the Environment shall be provided with an explanation of the proposed disposal method and/or disposal location of waste material generated from building demolition, as well as residual brush and asphaltic material.
8. Access shall be provided between Beaverdale Road and the Ministry of the Environment sewage treatment plant. Details of this access shall be provided to the Regional Director of the Ministry of the Environment to his satisfaction during detailed design.
9. The proponent shall provide evidence during the detailed design stage to the Regional Director of the Ministry of Natural Resources of having explored the possibility of using esker material for road base construction.
10. The proponent shall provide evidence during the detailed design stage to the Regional Director of MNR, to his satisfaction, that the undertaking does not adversely affect fish habitat or deer movement.

O. Reg. 109/85.

Exemption—Ministry of Natural Resources—MNR-42.

Made—February 21st, 1985.

Filed—March 5th, 1985.

### ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

#### EXEMPTION—MINISTRY OF NATURAL RESOURCES—MNR-42

Having received a request from the Minister of Natural Resources that an undertaking, namely:

Wildlife population and habitat management activities as conducted by MNR, including:

- (a) Population control through the establishment and enforcement of bag limits and hunting seasons for game species;
- (b) Protection of game and non-game species by relocation, controlled access and propagation;
- (c) Habitat improvement including the planting and cutting of vegetation;
- (d) That part of the Class Environmental Assessment for Fish Stocking in New Waters which involves the giving of notices to the public and others;

be exempt from the application of the Act pursuant to section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The Crown and the public will be interfered with and damaged by the expense required to prepare an environmental assessment for

activities that will have no significant adverse effects on the environment.

- B. The environmental, recreational and economic benefits accruing to the people of Ontario will be reduced in the absence of these wildlife management activities.

- C. If the notices required to be given pursuant to the Class Environmental Assessment for Fish Stocking in New Waters, approved under the *Environmental Assessment Act*, the 1st day of April, 1982 and published in the Ontario Gazette dated May 8, 1982, were to be given, there is a possibility that freshly stocked new waters would be prematurely fished out by persons who became aware of the stocking through such notices thus frustrating the purpose of the activity and injuring the Ministry of Natural Resources.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The activities referred to in this Order are not expected to have significant harmful effects on the environment;
- B. The activities carried out under this Order have direct and indirect recreational and economic benefits to the people of Ontario;
- C. The undertaking is carried out in accordance with accepted wildlife management principles and is designed to meet objectives which are established through projected wildlife population studies and user demand estimates.

This exemption is subject to the following terms and conditions:

- 1. Where wildlife population and habitat management activities have, or may have, a significant effect on the environment, MNR shall provide prior notice of that activity to the affected public and government agencies. The notice, which may be in the form of media advertisements, shall specify the location and description of the project, the scheduled project commencement date, the return period for comments and where additional information on the project is available. The notice shall be issued at least 30 days before implementation commences.

2. Where the Minister of the Environment determines, after consultation with the Minister of Natural Resources, that a proposed activity:

- (a) may generate an unusual amount of public or Government concern;
- (b) may have unusual or significant potential environmental impacts not adequately treated in the pertinent planning exercise; or
- (c) would otherwise warrant an environmental assessment,

the Minister of the Environment may, by written notice to the Minister of Natural Resources, direct that an environmental assessment be prepared for the activity in which event the activity will not be exempt under this Order.

3. Where the Minister of the Environment has given written notice to the Minister of Natural Resources that he is considering the application of condition 2 to an activity, MNR shall not implement the activity until 45 days have elapsed from the giving of notice or the Minister of the Environment gives written notice to the Minister of Natural Resources that it is not proposed to require an environmental assessment.

4. This Exemption Order does not apply to any activity:

- (a) involving the introduction into the Province of Ontario of a species of animal, fish or vegetation not already present in the Province of Ontario;
- (b) which is likely to affect the habitat of a species designated under the *Endangered Species Act* (except for protecting the species); or
- (c) which is being carried out in recommended or existing provincial parks.

5. This exemption will not be used for the establishment of new wildlife management areas.

6. Where an activity which would otherwise be exempt under this Order is being carried out as or is part of an undertaking with respect to which MNR has an approval under the Act, the activity shall be carried out in accordance with the terms and conditions of that approval. This condition does not apply to the undertaking respecting the giving of notice to the public or others required by the approval date April 1, 1982 for the Stocking of Fish in New Waters.

7. Where an activity which otherwise would be exempt under this Order is being carried out with another proponent and that proponent has an approval under the Act for that activity, it shall be carried out in accordance with the terms and conditions of that approval and shall not be exempt under this Order. ## ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 110/85.

Exemption—Ministry of Transportation and Communications—MTC-55.

Made—February 21st, 1985.

Filed—March 5th, 1985.

### ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

#### EXEMPTION—MINISTRY OF TRANSPORTATION AND COMMUNICATIONS—MTC-55

Having received a request from the Ministry of Transportation and Communications that an undertaking, namely:

The planning, design, construction, operation and maintenance of projects which fall within the class of projects described in the Provincial Highways Program Class Environmental Assessment submitted to the Minister of the Environment on December 29, 1983, including:

- (a) Improvements to existing highways and freeways;
- (b) New interchanges on an existing highway or modifications to existing interchanges;
- (c) New or modified water crossings; and
- (d) New highway service facilities

be exempt from the application of the Act pursuant to section 29; and

Having been advised by the Ministry of Transportation and Communications that if the undertaking is subject to the application of the Act, the following

injury, damage or interference with the persons and property indicated will occur:

- A. The Ministry of Transportation and Communications will face accelerated costs if an individual environmental assessment is prepared for each project which falls within the class of projects described in the Provincial Highways Program Class Environmental Assessment which has been submitted to the Minister of the Environment for review and approval under the *Environmental Assessment Act*.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management of the environment in Ontario which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order that the undertaking is exempt from the application of the Act for the following reasons:

- A. The undertaking was approved in 1980 under the *Environmental Assessment Act* and that approval expired January 1, 1985. The Provincial Highways Program Class Environmental Assessment submitted December 29, 1983 is intended to replace the previous assessment. It is still under review.
- B. The Ministry of Transportation and Communications has informed me that the environmentally-based planning process described in the Provincial Highways Program Class Environmental Assessment will be followed for each of the projects planned or constructed under this exemption order, including the preparation of an environmental study report.
- C. The undertaking is unlikely to have any significant adverse effects on the environment.

This exemption is subject to the following terms and conditions:

1. The Ministry of Transportation and Communications shall follow the process outlined in the Provincial Roads Program Class Environmental Assessment when planning or constructing projects within the class.
2. This exemption shall terminate upon approval of the Provincial Highways Program Class Environmental Assessment which is currently under review. O. Reg. 110/85.

## ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 111/85.

Exemption—Nepean Hydro—NEPE-C-1.

Made—February 21st, 1985.

Filed—March 5th, 1985.

### ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT EXEMPTION—NEPEAN HYDRO—NEPE-C-1

Having received a request from the Hydro-Electric Commission of the City of Nepean ("Nepean Hydro") that an undertaking, namely:

the activities of planning, designing, constructing and operating an electrical transformer substation to transform electrical current from 115 kV to 8 kV, on lands owned by Nepean Hydro, in the City of Nepean, being Part of Lot 34, Concession 2, Rideau Front, Township (now City) of Nepean, shown and designated as Part 1 on a Plan of Survey of Record in the Land Registry Office No. 4 for the Land Titles Division of Ottawa-Carleton as 4R-4420 and the obtaining of electrical power therefor from the immediately adjacent Ontario Hydro 115kV transmission line,

be exempt from the application of the Act pursuant to section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. If Nepean Hydro failed to meet the electrical needs of a proposed development in the vicinity of the proposed undertaking the public would be injured by the delay or cancellation of the proposed development.
- B. If the likely alternative to meet the electrical needs of the proposed development, the provision of 44kV electrical supply to a transformer station on the same site, which would not require approval under the Act, were carried out, Nepean Hydro and its customers would be damaged by increased costs and the additional impact of the constructing of a 44kV transmission line from facilities of Ontario Hydro to the transformer station site.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management of the environment which would result from the undertaking being subject to the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The proponent has advised that the site was purchased from C.M.H.C. for the express purpose of building a 44kV electrical transformer station and has since determined it would be more economical and have less impact on the natural environment if the station were built to transform energy obtained directly from Ontario Hydro's adjacent 115kV power line rather than through new 44kV transmission facilities which would have to be provided to bring electricity from more remote 44kV facilities owned by Nepean Hydro.
- B. The proponent has further advised that the City of Nepean, who will control the development of a new community on the surrounding lands, have approved the use of this land for a substation site and support the proposed construction of a transformer substation supplied from the adjacent 115kV power line.
- C. The proponent has advised that the transformers and low voltage switchgear will be enclosed in a building similar to those used and accepted elsewhere in the City of Nepean.
- D. The proponent has initiated a consultation process with the Ministry and will maintain this contact throughout the planning and construction stages.

This exemption order is subject to the following terms and conditions:

1. The exemption shall expire if construction is not commenced by June 30, 1986.
2. Mitigation of any adverse environmental effects during construction will be undertaken in accordance with Ontario Hydro's "Construction and Site Restoration Guidelines for Transmission Facilities".

Exemption—Ministry of Government  
Services—MGS-62.

Made—February 21st, 1985.

Filed—March 5th, 1985.

## ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

### EXEMPTION—MINISTRY OF GOVERNMENT SERVICES—MGS-62

Having received a request from the Minister of Government Services that an undertaking, namely:

the activity of constructing a hangar for the Ministry of Health Air Ambulance Service and Ministry of Natural Resources' aircraft at the Thunder Bay Municipal Airport, Highways 11/17 and 61 in the City of Thunder Bay,

be exempt from the application of the Act pursuant to section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury damage or interference with the persons and property indicated will occur:

- A. The Ministry of Government Services and the public will be interfered with by the preparation of an environmental assessment for an undertaking which will have insignificant adverse environmental effects.
- B. The Ministry of Natural Resources and the Ministry of Health will be interfered with in that they require the project to improve existing inadequate facilities which severely hamper effective and efficient program delivery.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The proposed undertaking will not have significant adverse effects on the environment.
- B. The undertaking will improve program delivery which suffers currently due to inadequate accommodation.

## ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 113/85.

Exemption—Ministry of Government Services—MGS-61.

Made—February 21st, 1985.

Filed—March 5th, 1985.

### ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

#### EXEMPTION—MINISTRY OF GOVERNMENT SERVICES—MGS-61

Having received a request from the Minister of Government Services that an undertaking, namely:

the activity of constructing a small multi-ministry office building at the northwest corner of Queen Street and Fourth Avenue in the Town of Sioux Lookout,

be exempt from the application of the Act pursuant to section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The Ministry of Government Services and the public will be interfered with by the preparation of an environmental assessment for an undertaking which will have insignificant adverse environmental effects.
- B. The Ministries of the Attorney General, Natural Resources, Community and Social Services and Northern Affairs will be interfered with in that they require the project to improve existing inadequate facilities which severely hamper effective and efficient program delivery.
- C. The public will be interfered with and possibly damaged in that the level of service available and the access to that service is restricted by the existing inadequate accommodations.

Having weighed such injury, damage or interference against the betterment of the people of the whole

or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The undertaking will have no significant adverse environmental effects.
- B. The undertaking will consolidate and improve service delivery which currently suffers due to dispersed, overcrowded and inadequate facilities.
- C. The Minister of Government Services has stated that adequate accommodation to satisfy the requirements of the client Ministries is not available in the local marketplace.
- D. The site of the proposed project is owned by the Government of Ontario, is zoned to permit the undertaking and has adequate municipal services to accommodate the undertaking. O. Reg. 113/85.

## ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 114/85.

Exemption—Municipalities of Ontario—MUNI-2.

Made—February 21st, 1985.

Filed—March 5th, 1985.

### ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

#### EXEMPTION—MUNICIPALITIES OF ONTARIO—MUNI-2

Having received a request that an undertaking, namely the activity of providing and operating sewage or water works to serve the indicated municipalities:

Township of Chapple Sewage Works—  
Project No. 3-0428

Township of Charlottenburgh Sewage  
Works—Project No. 3-0427

Township of Charlottenburgh Water Works—Project No. 7-0531

Township of Lochiel Water Works—Project No. 7-0516

be exempt from the application of the Act pursuant to section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. A delay in the implementation of these projects will adversely affect the municipalities by increasing both engineering and construction costs of the projects.
- B. The residents of the above municipalities will be forced to continue to depend on an existing impaired water supply or will be exposed for a longer period of time to health hazards because of the presence of untreated sewage in the municipality.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The proponents have advised that no adverse environmental effects are expected from the construction and operation of the sewage and water works.
- B. In all cases a planning process compatible with the proposed planning process of the Class Environmental Assessment for Municipal Sewage and Water Projects was used and there has been public input to the projects.
- C. The proponents advise that the alternative of upgrading existing private sewage and water systems was evaluated and rejected as not being a cost effective method of alleviating specific community problems.
- D. The water quality and quantity and community health benefits that will result from these works should be available to the affected communities. O. Reg. 114/85.

## ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 115/85.

Exemption—Essex Region Conservation Authority—ESR-01.

Made—February 21st, 1985.

Filed—March 5th, 1985.

### ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

#### EXEMPTION—ESSEX REGION CONSERVATION AUTHORITY—ESR-01

Having received a request from the Essex Region Conservation Authority that an undertaking, namely:

The activity of dredging the lower portion of Turkey Creek—Grand Marais Drain from the limit of the existing improvement at the Sandwich West Windsor boundary to the mouth, and a portion of the Cahill Drain outlet within the Township of Sandwich West from the confluence with Turkey Creek to the downstream side of Malden Road with dredge spoils to be sidecast to raise the elevation of overbank areas, to contain 1 in 100 year flows except through the wetland area from chainage 25 + 00 to downstream of Essex Terminal Railway, where dredge spoils will be removed to locations outside of the improved channel,

be exempt from the application of the Act pursuant to section 29; and

Having been advised by the Essex Region Conservation Authority that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The public and municipality will be subject to recurring flood damages associated with Turkey Creek for a longer period of time than if the undertaking was carried out forthwith.
- B. Developments proposed on private land will be delayed due to flooding hazards, thus reducing anticipated municipal assessments required to fund current major sanitary sewer installations.
- C. The City of Windsor is unable to proceed with further upstream flood damage reduction drainage improvements until the subject undertaking is completed.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. Channel improvements completed to date along Turkey Creek—Grand Marais Drain have been completed under the *Drainage Act*. Given that the continuation of municipal stream improvements carried out under the *Drainage Act* would be exempt from the requirements of the *Environmental Assessment Act*, it is proposed that an exemption should now be granted so that the project can proceed expeditiously under either the *Drainage Act* or the *Conservation Authorities Act*.
- B. Considering the existing degraded condition of this lower stretch of Turkey Creek, the undertaking as proposed will result in a net improvement to the natural environment.
- C. Studies and corresponding remedial works were initiated decades ago, culminating in the current undertaking which is a planned extension and completion of remedial works required for flood damage reduction along the Turkey Creek watershed.
- D. The Turkey Creek—Grand Marais Drain has been the subject of major channel improvements prior to the passing of the *Environmental Assessment Act*. These works have been completed with the clear understanding that the outlet channel improvements would be completed as proposed by this undertaking.

This exemption is subject to the following terms and conditions:

1. The proponent shall appoint an on-site inspector who shall be responsible for, among other duties, overseeing the construction to ensure that all reasonable measures are taken to protect the natural environment and to ensure that appropriate corrective action is taken where problems may be encountered.
2. Special construction practices as noted below shall be employed through the wetland area to ensure minimum adverse impact on the wetland:
  - a) construction activity in this area will be restricted to the period October 15 to April 15, and
  - b) spoil material dredged from the wetland area will be disposed of in a location approved by the Regional Director of Southwest Region, Ministry of the Environment, London ("Regional Director").

3. The slopes of the disposed dredgate shall not be steeper than 3:1 to ensure that the sidecast materials have stable banks; all sidecast materials shall be graded and seeded as soon as feasible after placement; the condition of the banks shall be monitored; and, if necessary, corrective action will be taken to ensure desired stability and the success of seeding.
4. The Authority shall place notices in a local daily newspaper to notify the public of the pending project and to give opportunities for public review of project details.
5. All private property owners whose lands are being directly affected will be notified by mail to ensure awareness of the undertaking.
6. Where alignment changes are yet to be finalized, as in the wetland area downstream of the Essex Terminal Railway, approval of the Regional Director will be obtained for the final alignment prior to construction.
7. Where the undertaking which otherwise would be exempt under this order is being carried out or is part of an undertaking for which an environmental assessment has been accepted and approval to proceed received, the undertaking shall be carried out in accordance with any terms or conditions in the approval to proceed as well as the conditions of this order.
8. The exemption order shall be valid until December 31, 1988, or one year after an approval is issued with respect to the Class Environmental Assessment for Water Management Structures, whichever comes first. O. Reg. 115/85.

(ii) "current cost of operating",

(iii) "elementary school pupil",

(iv) "eligible sum for French as a first language",

(vi) "non-resident pupil",

(vii) "O.E.",

(viii) "P.A.C.",

(ix) "R.O.E.",

(x) "resident-external pupil", and

(xi) "resident-internal pupil",

except that in respect of a board appointed under section 70 of the Act, "current cost of operating" does not include current expenditure for furniture and equipment and debt charges;

(c) "technological studies" means the curriculum developed from curriculum guidelines issued by the Minister for the intermediate division and senior division listed under the heading "Technological Studies" in circular H.S. 1 or in the circular entitled "Ontario Schools Intermediate

Senior Divisions Program and Diploma Requirements" issued by the Ministry.

2) Where a board of education provides instruction for one or more pupils in respect of whom fees are receivable, the fees shall be calculated under this regulation as if the board of education were a public school board and a secondary school board. O. Reg. 130/85, s. 1.

2.—(1) Subject to subsection (2) and to sections 3 and 6, where a board provides instruction for pupils whose fees are receivable from another board, from Canada, or from a band, council of a band or education authority authorized by the Crown in right of Canada to provide education for Indians, or where the board provides instruction for a pupil to whom subsection 48 (6) of the Act applies, the fees for a year in which it provides the instruction shall be calculated

(a) subtracting from the current cost of operating for the year of the board that provides the instruction, the grant payable to such board in respect of the eligible sum for French as a first language and for French as a second language for that year for the board, and dividing the difference so obtained by the sum of the average daily enrolment in respect of resident-internal and non-resident pupils of the board,

(i) calculated under section 2 of Ontario Regulation 127/85 "Calculation of Average Daily Enrolment",

(ii) calculated under section 3 of Ontario Regulation 127/85 "Calculation of Average Daily Enrolment" in respect of pupils taking a course for which credit is granted, in respect of the classroom instruction portion of a course in driver education, in respect of basic literacy or basic numeracy for adults, in respect of citizenship and language instruction for landed immigrants, and in respect of English or French as a second language for adults whose first language is neither English nor French,

(iii) calculated under section 4 of Ontario Regulation 127/85 "Calculation of Average Daily Enrolment" in respect of pupils taking a course for which credit is granted and in respect of a course of study acceptable to the Minister that the board is authorized or required to provide in its day school program in grades 1 to 8 or in a school or class for trainable retarded pupils; and

(b) multiplying the A.D.E. for the year of the pupils whose fees are receivable from the

other board, from Canada or other previously described source, as the case may be, by the sum of,

(i) the amount determined under clause (a), and

(ii) except where the board that provides the instruction is a board appointed under section 70 of the Act, the P.A.C. for such pupils.

(2) Where a board has entered into an agreement under subsection 165 (2) of the Act that provides for a payment by the Crown in right of Canada to provide classroom accommodation for a specified number of pupils, the P.A.C. for each such pupil, notwithstanding subclause 1 (1) (a) (viii), shall be zero. O. Reg. 130/85, s. 2.

3. Where a board appointed under section 70 of the Act operates a school in a centre for the treatment of cerebral palsy, a crippled children's treatment centre, a hospital or a sanitorium and provides instruction therein for pupils whose fees are receivable from any source, the fee for such a pupil shall be calculated by,

(a) adding to the current cost of operating of the board for the year in which it provides the instruction, the portion approved by the Minister for grant purposes of the expenditure for such year for the transportation of pupils, and deducting from the total thereof the General Legislative Grants payable to the board for such year except a grant that is equal to the cost of education;

(b) dividing the amount determined under clause (a) by the sum of the days on which each pupil is enrolled at the school; and

(c) multiplying the amount determined under clause (b) by the number of days for which the pupil whose fee is being calculated is enrolled at the school. O. Reg. 130/85, s. 3.

4. Where a board, except a board appointed under section 70 of the Act, provides instruction for a pupil in respect of whom fees are required to be paid, other than a pupil whose fees are receivable from another board or from Canada or from a band, council of a band, or education authority authorized by the Crown in the right of Canada to provide education for Indians, and the parent or guardian of the pupil is resident in Ontario, the fees payable on behalf of the pupil shall be such as the board may prescribe except that in the case of each of a public school board, a separate school board and a secondary school board, the total fees charged, in respect of a year,

(a) to a parent or guardian who is not resident in a school section, separate school zone or secondary school district, in respect of his or her children or wards who attend the board's schools, shall not exceed \$55 per month dur-

ing which such children or wards are enrolled at the board's schools; and

- (b) in the case of a pupil who is qualified to be a resident pupil of a school section, separate school zone or secondary school district, shall not exceed, in respect of each month the pupil is enrolled, the greater of,

(i) \$55, and

(ii) one-tenth of the sum of,

(A) the quotient obtained by dividing,

I. the board's estimate of the excess of its O.E. for the year over its R.O.E. for the year,

by,

II. the A.D.E. of the board for the year that is in respect of resident-internal pupils of the board,

and,

(B) the P.A.C.,

except that where the pupil is enrolled in a high cost program as defined in section 6, such greater amount may be increased by an amount which takes into account the additional cost to the board of providing such program. O. Reg. 130/85, s. 4.

5. Where in any year a board provides instruction for a pupil in respect of whom fees are required to be paid and whose parent or guardian does not reside in Ontario, except a pupil to whom subsection 48 (6) of the Act applies, the fees payable by or on behalf of the pupil shall be such as the board may prescribe but, subject to subsection 6 (5) shall not exceed the product obtained by multiplying one-tenth of the sum of the quotient determined under clause 2 (1) (a) and the P.A.C. for the pupil by the number of months during which the pupil is enrolled in such year in a school operated by the board that provides the instruction. O. Reg. 130/85, s. 5.

6.—(1) In this section, "high-cost program" means,

- (a) a special education program other than a program provided in the board's school in lieu of an education program provided by a provincial school for the blind and the deaf or such other program approved by the Minister for which a General Legislative Grant is payable;

- (b) a program for trainable retarded children;

- (c) a program that includes technological studies that qualify in a school year for three or more credits toward the Secondary School Graduation Diploma or Ontario Secondary School Diploma; and

- (d) a program of grade 9 or 10 that is offered at an elementary school.

(2) The fee calculated under section 2, whether chargeable by a board in respect of an elementary school pupil who is registered in a high cost program or a pupil enrolled in a school or class for trainable retarded pupils other than a trainable retarded pupil who does not have the right to attend under subsection 73 (1) of the Act, may be increased by multiplying it by a factor agreed upon by the fee payor and the board charging the fee when,

- (a) the ratio of the A.D.E. of such pupils registered in a high cost program for whom fees are receivable by the board from such fee payor to the A.D.E. of elementary school pupils or trainable retarded school or class pupils registered in such high cost program conducted by the board,

is greater than,

- (b) the ratio of the A.D.E. of such pupils for whom fees are receivable by the board from such fee payor to the A.D.E. of elementary school pupils and trainable retarded school class pupils registered at the board's school.

(3) The factor agreed upon pursuant to subsection (2), in the case of a pupil registered in a program referred to in clause (1) (d), shall not be greater than the sum of one and the enrolment weighting factor for grant purposes for elementary school pupils enrolled in grade 9 or 10 referred to in the definition of day school weighted A.D.E. for grant purposes in the regulation entitled "General Legislative Grants" applicable to the year for which the fee is calculated.

(4) Subsection (2) applies with necessary modifications to secondary school pupils.

(5) Where a pupil to whom section 5 applies is registered in a high-cost program, the maximum fee payable in respect of such pupil shall be determined by multiplying the maximum fees under section 5 by the factor to be agreed upon between the board that provides the instruction and the party from whom the fees are receivable.

(6) Where under this section the board that provides the instruction and the other board or party concerned cannot agree upon a factor, the factor shall be determined by three arbitrators, one arbitrator appointed by the board that provides the instruction, one arbitrator appointed by the board from which or the party from whom the fee is receivable and one arbitrator appointed by the Minister, and the decision of the arbitrators or a majority of them is final and binding.

upon the board that provides the instruction and the other board or party concerned. O. Reg. 130/85, s. 6.

7. Where a board, except a board appointed under section 70 of the Act, provides an education program at a hospital or treatment centre, other than a program for which the board receives General Legislative Grants equal to the salaries of the teachers conducting the program and other program expenditure allowances, the fee payable in respect of a pupil who is not qualified to be a resident pupil of the board and for whom such an education program is provided shall be such as may be agreed upon between the board that provides the program and the parent or guardian of the pupil or the board of which the pupil is qualified to be a resident pupil. O. Reg. 130/85, s. 7.

## ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 168/85.

Exemption—Ministry of Transportation and Communications—MTC-54.

Made—March 28th, 1985.

Approved—March 28th, 1985.

Filed—April 3rd, 1985.

### ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

#### EXEMPTION—MINISTRY OF TRANSPORTATION AND COMMUNICATIONS—MTC-54

Having received a request from the Ministry of Transportation and Communications that an undertaking, namely:

The Remote Northern Airport Program of the Ministry of Transportation and Communications which includes:

1. The planning, design, construction and operation of remote airports and the buildings, facilities and access roads associated with such airports;
2. The expansion of existing remote northern airports; and
3. Major improvements to and/or relocation of access roads at remote northern airports,

be exempt from the application of the Act pursuant to Section 29; and

Having been advised by the Ministry of Transportation and Communications that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The proponent and review agencies will be damaged by the expenditure of resources to review and resubmit a Class Environmental Assessment for an undertaking which normally does not cause significant detrimental environmental effects and for which the

existing class environmental assessment process is acceptable to the proponent, review agencies and potentially affected parties.

Having weighed such injury, damage, or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The Ministry of Transportation and Communications (MTC) has demonstrated that the Remote Northern Airport Program provides significant social and economic benefits to the communities served with minimal disruption of the environment; which has been further demonstrated by the development of projects in accordance with the approval which was issued pursuant to order in council number O.C. 2801/80 and which has recently expired.
- B. The Remote Northern Airport projects are undertaken only in response to a request from and with the cooperation and approval of the band council of the Indian Reserve to be served by the airport.
- C. Parties and agencies which might be affected have been informed about the exemption request for this program and no objections have been raised.
- D. The nature of the projects, the scale of the program, the commitment by MTC to follow the previously approved Class Environmental Assessment process for the Remote Northern Airport Program and the provisions to allow specific projects to be redesignated as specified in the following terms and conditions will ensure the protection, conservation and wise management in Ontario of the environment.
- E. If environmental concerns are identified with a specific airport which cannot be resolved, this exemption order may be amended so that the project is not exempt and an individual environmental assessment will have to be prepared for it and an approval obtained.
- F. If in the future any person identifies any problem or insufficiency in the procedure prescribed by the conditions to this order that do not relate only to a single project, the Minister of the Environment may, after considering any submissions from any interested persons, terminate or amend this order to remedy such problem or insufficiency.

This exemption order is subject to the following terms and conditions:

1. Except as provided in subsequent conditions, MTC shall continue to follow the Remote Northern Airport Program Class Environmental Assessment, originally approved October 1980, for each project.
2. The format and minimum level of detail to be provided in the Environmental Study Report filed for each project, and as described in Part IV of the Class Environmental Assessment will be modified in accordance with the amended Part IV, filed with the request for this exemption order and placed in the public record file for the Class Environmental Assessment.
3. This order shall terminate on the later of
  - (a) five years after its approval, and
  - (b) such later date as the Minister of the Environment from time to time specifies by notice in writing filed in the public record file for the Class Environmental Assessment after MTC has given notice in a form approved by the Minister of the Environment of its proposal to ask for an extension. #### NOTICE OF APPLICATION BY THE CORPORATION OF THE CITY OF HAMILTON FOR PRIVATE LEGISLATION

NOTICE IS HEREBY GIVEN that The Corporation of the City of Hamilton will make application to the Legislative Assembly of the Province of Ontario at its next regular session commencing in 1985 for an Act which will enable the City to pass by-laws respecting maintenance of unassumed lanes or alleys. The by-laws will,

- (b) prohibit the parking or leaving of motor vehicles on an unassumed lane or alley and erecting signs indicating the parking prohibition; and
- (c) require an owner or tenant of property abutting an unassumed lane or alley to remove debris, leaves, weeds, trees or snow from the lane or alley.

The Act also provides that the expenditure of public money by the City on unassumed lanes or alleys will not constitute assumption of the lane or alley by the City, and that performing or omitting to perform the maintenance of the unassumed lanes or alleys will not directly or indirectly impose any duty or liability or financial obligation on the City.

ENVIRONMENTAL ASSESSMENT ACT

NOTICE OF ACCEPTANCE OF THE  
ENVIRONMENTAL ASSESSMENT

NOTICE OF APPROVAL TO PROCEED WITH  
THE UNDERTAKING

RE: An Environmental Assessment for designation under the *Highway Traffic Act* of a new alignment for Highway 17 between Whitefish and Highway 6 for the purposes of property protection and the acquisition of property.

Proponent: Ministry of Transportation and Communications

File No. 1-79-0008-000

TAKE NOTICE that the date for receipt by me of submissions or requirements for a hearing on the above environmental assessment and its review by the Ontario Government, pursuant to the *Notice of Completion of Environmental Assessment Review* with respect to the above environmental assessment, has expired. I have received no requirements for a hearing. I do not consider it advisable to require the Environmental Assessment Board to hold a hearing at this time.

ACCEPTANCE OF THE ENVIRONMENTAL ASSESSMENT

I have considered the purpose of the Act, the above environmental assessment and the review and am of the opinion that the environmental assessment is satisfactory to enable a decision to be made as to whether approval to proceed with the undertaking should or should not be given, should be given subject to terms and conditions.

Accordingly, I accept the environmental assessment.

HEARING

Under section 13 of the Act, before I, or the Environmental Assessment Board, can consider whether approval to proceed with the undertaking should or should not be given, or should be given subject to terms and conditions, the proponent or anyone having previously made a submission under subsection 7 (2) of the Act on the *Notice of Completion of Environmental Assessment Review* for this undertaking, may require a hearing by the Environmental Assessment Board with respect to whether approval to proceed with the undertaking

should or should not be given, or should be given subject to terms and conditions.

The proponent has waived the right to a hearing in the approval of the undertaking and no submissions have been made by others under subsection 7(2).

#### APPROVAL TO PROCEED WITH THE UNDERTAKING

I have considered the purpose of the Act and the environmental assessment of the undertaking as accepted by me.

Accordingly, I hereby give approval to proceed with the undertaking subject to the condition set out below.

#### REASONS

The reasons for giving approval are:

1. On the basis of the proponent's Environmental Assessment and the review process, the proponent's conclusion that, on balance, the advantages of this undertaking outweigh its disadvantages appears to be valid.
2. No other more beneficial alternative method of implementing the undertaking was identified.
3. On the basis of the proponent's Environmental Assessment, the review process and the conditions of approval, the implementation of the undertaking will be consistent with the purpose of the Act (section 2).
4. Prior to construction, the Ministry of Transportation and Communications is expected to submit a one stage environmental assessment and obtain approval. The one-stage environmental assessment will contain all the components of an environmental assessment specified in the Act, including but not limited to: a summary of the work done to the date of this approval, updated information used in the earlier studies, a re-evaluation of alternatives to the undertaking, and confirmation that the preferred alternative for which designation is hereby approved is still valid.

#### CONDITION:

1. This approval is for designation of a right-of-way and acquisition of land and does not constitute approval to construct the roadway.

Dated at Toronto, this 9th day of April, 1985.

MORLEY KELLS,  
Minister of the Environment.
